

## WEAR PLATES

Vandan Steel Engineering & Co. wear plates are composite plates having a very alloyed wear safe surfacing on a low carbon steel base. These plates are fabricated by customizing programmed hardfacing process bringing about a hard, intense and very wear safe surface. The mild steel base makes the plates manageable to simple forming, welding or shooting to the segment surfaces.

The prevalence of the Vandan Steel Engineering & Co. scope of wear plates is an aftereffect of strict investigative and metallurgical control of every last one of phases of the creation methodology moved down by the specialized ability of Vandan Steel Engineering & Co. in welding consumables.

### **Vandan Steel & Engg. co.**

359 / 373, Flat -9, 2nd Floor, Minerva Mansion, Svp.  
Road, Khetwadi, Giragoan, Mumbai-400 004.

An organization's presence relies on benefit and the quality of its products. Wear plates are utilized to make a more drawn out life interest in supplies, for example:

- Wear Blades
- Choppers
- Scrapers
- Mining Tools
- Chippers
- Punch Press Applications
- Wear Rings
- Wear Segments
- Bucket Scrapers
